

# Graduation & Employment Statistics

Vista College – Online Campus

Listed below are the October 2019 graduation and employment outcomes reported to the Accrediting Commission of Career Schools and Colleges (“ACCSC”). The reporting period used to complete the chart is determined by multiplying the published length in months for each program by 150% and adding three months to provide opportunity for placement. Counting backward from the report date of July 2019 the calculated number of months provides the reporting period ending month. The beginning of the reporting period is then 12 months prior. All students who enrolled and started at Vista during that 12 months are included in the statistics, except for students considered to be unavailable for placement due to a medical condition, incarceration, active military, or death.

PROGRAM	GRADUATION RATE	EMPLOYMENT RATE
Reporting Period: March 2016 – February 2017
